User Guide

<i>Example Table*</i>				
Percentile Scores Relative to Peer Group	Utilization (1)		Comprehensive Care (5)	
	Achievement adjustment (%)*	Improvement adjustment (if earned) (%)*	Achievement adjustment (%)*	Improvement adjustment (if earned) (%)*
<25	-3.00	2.50	-1.40	1.24
25-49	0.00	0.50	0.00	0.32
50-59	0.80	0.70	0.48	0.16
60-69	1.50	1.30	0.64	0.64
70-79	3.50	1.00	1.59	0.48
80-89	5.00	0.90	2.38	0.32
>90	7.00	0.50	3.35	0.16

Percentile Scores

Your performance on each measure is scored against your peer group's performance. Use the row associated with your percentile range for each measure to determine your achievement adjustment and your improvement adjustment, if earned. The maximum possible PBA is 25%, and the minimum possible is -10%.

Number of Measures in Domain

The number of measures per domain for which a practice qualifies is indicated in parentheses () after the domain name.

Improvement Adjustment

This column indicates the earned PBA, per measure, if your percentile score on that measure increased at least 3% from the last performance period.

PBA Example

A practice with five (5) measures in Comprehensive Care and one (1) measure in Utilization will use this example table. They score in the 65th percentile for their Utilization measure and earned the Improvement Adjustment, so they receive 2.8% PBA for this measure (1.5% + 1.3%). This practice scores in the 82nd percentile for one of their Comprehensive Care Measures, but did not improve from the last period, so they add 2.38% to the 2.8% PBA they earned for the Utilization measure. Repeat for each measure.

*Achievement and Improvement Adjustments under the Utilization and Comprehensive Care domains are adapted from the Centers for Medicare and Medicaid Innovation, Primary Care First methodology.
